

Jacob McQuirk:

This is concerning the death of the Delta, for the water users in the southern part of our state.

It is against the LAW to destroy one community for the benefit of the other.

The Metropolitan Water District (MWD) is the most corrupt organization in the state of Ca. It has destroyed the Owens valley dist. With its water grab, and now it wants to turn the Sacramento River into the Sacramento Creek.

I live in Discovery Bay and there is so much fresh water pumped into this area, What was an estuary now is a lake. There is so much invasive water plants that now exist here it has destroyed our community.

The poor central valley farmers have sold their water rights to the MWD and now are crying for more water.

The Kern water storage was built by tax-payers but its control was given to Stuart ResDick who is receiving water from the Mindota water canal and the Ca. Aqueduct At record low prices then sell the water back to the state and farmers for huge profits. These two canals are running at maximum capacity. While our lakes in northern Ca are empty.

Paragon ranch owned by Stuart ResDick Was told by the water board to grow row crops but is growing Pistachio and almond trees that require more water. To sell to the Chinese.

This water bank is supposed to be for the central valley farmers but more likely will go to the Tejon housing project With thousands of houses and golf-course, Stuart ResDick will make more AND MORE \$\$

What does the MWD do with our water, build golf courses in the desert. and Palm Springs In L.A. They have torn up the orange groves and built houses tracks to make more \$\$ . And now the Tejon housing project.

The MWD (Needs to desalinate), But Desalination plants are ugly, and the MWD will have to pay for this it is much cheaper for the MDW to Rape the delta and get the state to pay for the two tunnels project. These two tunnels will cost over 100 BILLION \$\$ before there will be finished.

Please stop the Rock dams that will Help destroy our community, and once they get the ok then will build more and more permanent Dams that only benefit the Mwd and Kern Water bank and Strwart ResDick. While the Delta is destroyed.

All of the Marinas, the delta boating community, the fishing community and everything in the delta will suffer.

Do you want to be a part of the death of the DELTA?
